

LUMii

BLACK

MORE, BETTER, CHEAPER

The LUMii
BLACK 720W
6-Bar 2,6 $\mu\text{mol}/\text{J}$
LED Fixture -
powered and
controlled by the
LUMii Black 600 W
electronic ballast

- The best affordable LED solution
- Designed to work with the LUMii BLACK electronic 600W ballast
- SAVE Power! At 600W, useful output similar to a 1000W HPS lamp
- Increase taste and plant growth
- Passive cooling for optimal LED performance
- IP65 Protected against water and dust
- Dim and boost functions via the ballast

IMPRESSIVE RESULTS IN BOTH TASTE & YIELD

The LUMii BLACK 720W 6-Bar 2,6 $\mu\text{mol}/\text{J}$ combined with the LUMii BLACK 600W Electronic Ballast is a quality LED solution for an extremely low price. This is the time to switch from HPS to LED. The open construction of the LED Fixture and its very low heat output assist airflow and heat management of the grow room. Producing full spectrum light ideal for both growth and bloom, the LUMii BLACK LED 720W 6 Bar Fixture is sure to give impressive results.

A MATCH MADE IN HEAVEN

LUMii BLACK 600 W Electronic Ballast and the LUMii BLACK 720W 6-Bar 2,6 $\mu\text{mol}/\text{J}$ LED Fixture

The LUMii BLACK 600 W Electronic Ballast, already the best-selling European Ballast because of its quality and sharp price, now has an LED add-on with the same quality features that made it so successful. Use this LED Fixture with the LUMii BLACK 600W Electronic Ballast* you already have or buy them together as a kit. Either way you will save a lot of money for the same high quality.

LED is EFFICIENCY

Efficiency through better taste, better plant development thus better yields. The LUMii BLACK 720W 6-Bar 2,6 $\mu\text{mol}/\text{J}$ LED Fixture can assist you to obtain the best results at the most affordable cost. Your plants will not only benefit from the high photon output, but also from the passive cooling. The option to install the LUMii BLACK 600W Electronic Ballast up to 10 meters away enables you to fully realise the possibilities of temperature control. In addition, you can adjust the light output of your LUMii BLACK 720W 6-Bar 2,6 $\mu\text{mol}/\text{J}$ LED Fixture from its maximum setting - equivalent to that of a 1000W HPS lamp - to its minimum - equivalent to that of a 250W HPS lamp - as you require during the grow period.

LUMii.

BLACK™

*The LUMii BLACK 600W Electronic Ballast runs at a maximum effective rate of 720 Watts when used with the LUMii BLACK 720W LED 6-Bar Fixture. An HPS lamp set-up will typically draw at least 30 Watts more than the nominal wattage rating of the lamp, and the ballast was designed to provide an output of around 690 Watts from a 600W HPS lamp when the maximum 600W Boost setting is selected.
